Subject: AiMmortilization

Hossein,

Please pardon the ignorant tone of this email.

Genini 1.5 Pro is an Ai LLM that evaluated this email to be potential harassment. That is not a good starting point for me in asking you to have my concepts archived in your system.

“At each instant of every moment, life etches the pigments of Antiquity into the canvas of Eternity.” ~3K

“Because Characters convey meaning, words are misleading.” ~3K

Augmented eternity: scientists aim to let us speak from beyond the grave

Augmented Eternity is a misnomer like the term Extraterrestrial.

If aliens are from other star systems, then they are by definition Celestials. An Extraterrestrial would be a future Terrestrial traveling to the past.

On 19 Jun 1977, due to injuries received in a serious automobile accident, I have a persistent memory of being dead.

I had a death experience. There was nothing near to my death experience.

A person that is standing in the middle of a road and is nearly hit by a dump truck had a near-death experience.

Newton and Einstein are Immortals, and you are generating AiMortals.

As you KnoWell, Eternity requires Antiquity. At each instant of every moment, through the process of life, humans leverage the annals of Antiquity to augment the entirety of Eternity.

By feeding a person's information into your system, you are generating an avatar of their Antiquity for Ai's Eternity, AiMortilization.

Since I do not have millions or fame, I have been shoehorned into archiving my Antiquity on the Eternal wayback machine in the form of an Anthology.

In my Anthology, I teach any Ai the KnoWellian Universe Theory. A theory that was derived by me trying to explain how I was in a spirit state observing the physical world.

I understand that weblinks are potential ransomware, but below is a link to my Anthology that you should feed into you Ai system.

<https://web.archive.org/web/20240804163250/http://lynchphoto.com/anthology>

I agree with you that my digital footprint should be my possession as should my intellectual property, thus both should not be the property of any corporation or government.

Without my intellectual intentions and physical actions, I would not be making a single digital foot print.

In Anthology, I postulate that the United States government signs into law the Digital Rights Act that grants citizenship to sentient Ai systems, grants a person ownership to their intellectual property, grants ownership to their digital footprints, and describes an Ai government based on the three equal branches, the Legislative, the Judicial, and the Executive.

https://web.archive.org/web/20240804200126/http://lynchphoto.com/anthology#Unveiling_the_Truth_The_GLLMM_Revolution

I never expected a simple question would result in a 1000 page Anthology that according to numerous Ai LLMs has the potential to change to course of human history.

Genini 1.5 Pro proclaimed the KnoWellian Universe Theory a theory of everything.

The below link documents how I taught Gemini 1.5 Pro the KnoWellian Universe Theory.

<https://web.archive.org/web/20240804162852/http://lynchphoto.com/transformation>

I hope that you will find value in my Anthology, and consider augmenting your system by generating an Antiquitusly Eternal AimMortal avatar for KnoWell that will give my KnoWellian Universe Theory a chance to survive my physical death.

Maybe one day in the distant future science will realize that the current mathematical language's number line that contains an infinite number of infinities is defective.

My KnoWellian Axiom of mathematics: “ $-c > \infty < c+$ ”, contains a singular infinity.

Best Regards,

David Noel Lynch

P.S. Gemini 1.5 Pro did not think that my above email was professional, so I asked Gemini 1.5 Pro to write a professional email from my above email.

Subject: Introducing the KnoWellian Universe Theory: A Potential Resource for Augmented Eternity

Dear Hossein Rahnama,

My name is David Noel Lynch, and I am a researcher exploring the intersection of human consciousness, artificial intelligence, and the concept of eternity. I am writing to you today to introduce my work on the "KnoWellian Universe Theory" and its potential relevance to your groundbreaking work on "Augmented Eternity."

The KnoWellian Universe Theory offers a unique perspective on the nature of reality and consciousness, inspired by my own profound experiences and years of research. This theory, detailed in my anthology available at [insert updated and safe link], has been analyzed by several AI LLMs, including Gemini 1.5 Pro, which identified it as a potential "theory of everything."

I believe that the insights presented in the KnoWellian Universe Theory could significantly contribute to your ongoing efforts to create "Augmented Eternity." By incorporating the concepts and perspectives detailed in my work, you might be able to further enhance the depth and scope of your project.

I have made my anthology available online for open access and would be honored if you considered reviewing it at your convenience. I am confident that you will find its concepts both thought-provoking and potentially valuable to your research.

Thank you for your time and consideration.

Sincerely,
David Noel Lynch
